Hi there,

Thanks for purchasing from **Unio** | Creative Solutions.

### **About The File:**

Unio presents "Vision Font Family".

Vision is a contemporary geometric display sans typeface, based on a balanced construction of sharp angles with smooth shapes.

With this font we wanted to experiment with letters. In fact the research behind new shapes and different variations of the letterforms has given a futuristic look, ideal for catchy editorial headlines or logotypes.

The full version of this versatile all caps font family includes more than 430 characters and covers several languages that use the Latin alphabet, completed with an extensive accents and diacritics set.

It also comes in Regular and Bold weights optimized for maximum adaptability. As a matter of fact each font features 36 attractive alternates and 30 ligatures, which expands the possibilities when composing.

### **Specifications:**

- Files included: Vision Regular DEMO, Vision Bold DEMO
- Formats: .otf, .ttf
