Hi and thanks for purchasing from Unio Creative Solutions.

### **About The Product:**

Chinook has been designed as an homage to the iconic chunky look of the Italian movie titling from the 70s and 80s. Despite its vintage flair, our sturdy display font is perfectly adaptable for any contemporary context with its balanced and soft text typesetting.

This project is obviously influenced by the everlasting classic "Cooper Black", but includes more modern letter shapes, with rounded serifs and a fluffy overall appearance.

Chinook, includes a customized italic set, features an extended charset covering several languages based on the Latin Alphabet, and sports a complete set of Open type features. It's equipped with swashes, alternates as well as discretionary ligatures, old-style figures, subscript and superscript numerals, and even more special glyphs.

The heavy appearance makes this font ideal for high-impact design, such as headlines, titling, branding, and logotype.

Enjoy the full variable capabilities of "Chinook" with the [Commercial Version](#), now available to purchase from your favorite design market.

### **Specifications:**
